A Honeymooners delight. This cute cabin has everything you need to get away from the crowd but close enough to the action of Pigeon Forge, Gatlinburg and the Great Smoky Mountains National Park. A unique double sided fireplace, separates the living room and king bedroom. The bedroom also features a whirlpool tub and private bath. This true log cabin has a private, covered back porch and Hot tub for a romantic soak after the activities in the area. A cathedral ceiling in the living room makes the space seem larger, and upper gable windows bring in natural light. Exposed beams in the bedroom give it a cozy feel. Upstairs there is a loft w day bed and love seat w flat screen tv, but a small pool table will fit in this space as well. Xfinity high speed cable means you can watch games, stream movies and get high speed internet for your computer. In 2017 the cabin was remodeled with new kitchen countertops, new appliances, new furniture, new TV's and a new whirlpool tub with a slate stacked stone surround! This cabin is conveniently located just minutes from "The Island" and Dollywood in Pigeon Forge, and just a short drive to Gatlinburg and The Great Smoky Mountains National Park.
